

FAX COVER SHEET

From: Gary Elkins, Primary Examiner, Art Unit 3727

To: Christopher R. Pringle

Application No. 10/606,534

Title: FOREARM CAMERA MOUNT

Filed: 06/26/03

Number of pages including this page: 10

Mr. Pringle, please find attached to this fax a suggested specification, claims, abstract, and a cover sheet for submission of the response. The proposal would render the application allowable and in proper form. The proposal also includes a cover sheet which must be signed and dated if submitted. I have attempted to draft the specification to reflect the gist of the disclosure as set forth in the original specification and to draft claim 6 to reflect the concept of the camera positioning and how this is achieved by the device. However, it is suggested that a careful review of the proposal should be made.

The response should be submitted such that it is received within the PTO prior to Jan. 5, 2005 to avoid additional costs related to extension of time fees.

Art Unit: 3727

AMENDMENT AFTER NON-FINAL OFFICE ACTION

Responsive to the office action dated 05 October 2004, please amend the above application as follows:

Please substitute the following attached specification and abstract for the originally filed specification and abstract.

Please insert the following claim listing which replaces any previously filed claim listing in the application.

Respectfully submitted,

Christopher R. Pringle
